## A Parker Solution for Extreme Sealing

### Resilon Polyurethane

- Best over-all sealing performance TPU formulation on the market
- Improved strength and wear resistance
- Maintains lip contact under changing pressure
- Shore A Hardness
- Temperature Range:
  - -65°F to 275°F in oil
  - -35°F to 225°F in water
- Water resistant and extrusion resistant material available
- Enhanced resilience/rebound characteristics
- Recommended for industrial sealing, piston seals, rod seals, wipers, O-rings for all types of cylinders, shock absorbers, and heavy equipment.
