

Florida Seal & Rubber LLC has the expertise and the leading edge products to support your current and future needs. Our extensive experience in logistics allows us to help you choose the best sealing solution for your application.

Whether you need engineering design support, logistics and supply management for production, or a complete design and integration service, Florida Seal & Rubber LLC will surpass your expectations. Call our sales office to let us assist you.

Markets Served

Defense/Military	Marine
Aerospace	Energy
Industrial	Life Science
Semicon	Fluid Power
Electronics	Food & Beverage
Chemical	Hydraulic/Pneumatic MRO

Sealing & Fabrication

Back-Up Rings	Gaskets
O-Rings	Custom Molded Products
O-Ring Accessories	Thermal Management
Metal Seals	Spring Energized Seals
Hydraulic Seals	Elastomer Materials
Composite Seals	Teflon™/PTFE Seals
Rotary Seals	EMI/RFI Shielding
Sheet Goods	EMI/ESD Shielding Laminates
Extrusions	Design & Engineering Services

Business Services

E-Commerce	Engineering & Technical Support
Value Added Services	Financing & Credit Management
Quality Assurance Control	Logistics & Asset Management
